Technical Services

Utilizing a leading-edge multinational service team, CXI specializes in the development, delivery and support of cost effective IT solutions. This includes application development and maintenance, integration, conversions, business intelligence, data warehousing, performance dashboards and scorecards.

Staffing Solutions

CXI leverages global resources to meet any staffing demand or skill set. We offer flexible placement options including contract, contract-to-hire and direct placement. Our dedicated, knowledgeable and technical recruiting staff has a collective 40 years experience. Most clients' needs are filled within 20 business hours.

Functional Sourcing

CXI can take on some or all of your IT and operational responsibilities, allowing you to focus on your core business and reduce delivery costs. CXI works with clients to identify IT functions being considered for sourcing outside of the organization. We leverage our past expertise along with proven governance models, global delivery models and senior leadership to provide superior quality and competitive pricing.

Enterprise Resource Planning (ERP)

ERP can help your company boost operational efficiency by controlling costs, improving productivity, accelerating delivery time and enhancing customer service. CXI offers a full range of ERP consulting, from application selection and procurement to customization, implementation and deployment. We are a SAP Partner and have expertise with SAP and Oracle.
